What Educators Are Saying:

Extremely satisfied.

Very helpful in getting my student to not outline areas to make them stand out. I like how it progresses into more challenging shapes.- *Art Teacher, Terisa J.*

Extremely satisfied.

I lead students through these shading exercises, but offering the provided videos made it easier for students to revisit if they fell behind. This is a great way to teach students on how to shade without relying on outlines (something I continually have to remind students about). - Art Teacher, Hannah S.
