## TAKING AN EXPTRESSIVE SELF POTETTEAIT PHOTO

The self-portrait allows you to see yourself as others might see you and also is a way for others to see you as you see yourself or as you wish to been seen. When creating a self portrait, it is important to take a reference picture that captures your personality. Below is a list of things to take into consideration when you take your photo.

- · Location
- Position or Eye Level
- Expression
