**Mandala Design Radial Symmetry Art Lesson**

**Included in this lesson are :**

- A PowerPoint that includes a video demonstration of how to make a mandala with samples of student work Updated to also include Google Slides Version.
- PDF mandala practice template
- 5 PDF mandalas
- 2 PDF sample patterns that can be incorporated into a mandala

Thank you for purchasing these mandala resources.

Begin by previewing the PowerPoint and video demonstration. Print out all PDFs. You can make a class set of examples and reuse each period to save paper if you would like. I laminate mine and save them year to year. You can use the sample mandalas as coloring sheets as well for early finishers etc. If you use Google Classroom you can upload the PowerPoint and PDFs to your class stream so students can see them from their own devices. This is so helpful when students ask what to do next, when they come in late or missed a demonstration. They can bring it all up and watch it right from their phones. This way you can help the others while they catch up.

Next, have students watch the PowerPoint and video. Once they understand how to create a mandala have them complete the practice worksheet. After reviewing the worksheet they can begin to create a mandala on the toned paper. I cut my Paper to 12x12. You can adjust the size to fit your needs.

**DIRECTIONS**

Use the space below to practice making a mandala. Add pattern by repeating different lines and shapes radiating out from the center point. Your designs should be the same in each section. Use the guide marks as a guide to help you. Make sure you vary the thickness of your lines and shapes.

Lesson Slideshow

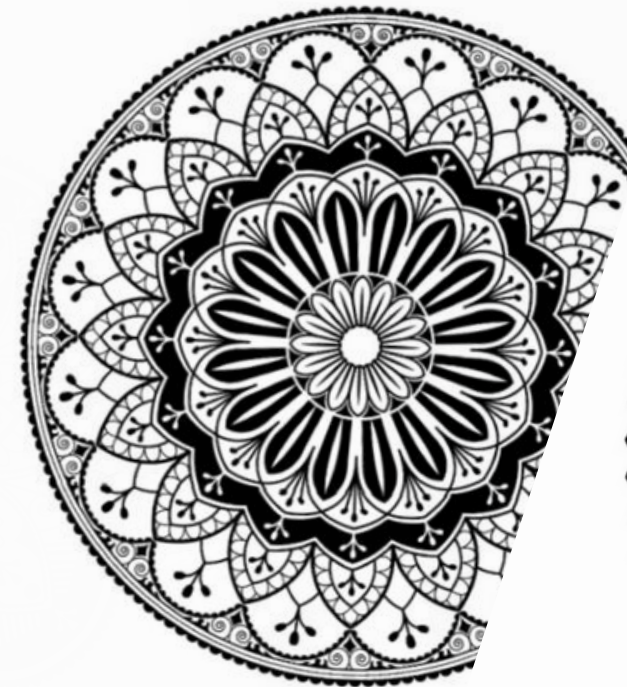

*What is a mandala?*

A mandala is a very decorative pattern filled circle. The design demonstrates radial symmetry. The patterns and shapes radiate outward from the center.

These ready-to-go art lessons are a great addition to any middle school art or high school art curriculum. These drawing and design lessons can be modified or adapted for a variety of different levels of art abilities.

# What Educators Are Saying:

## Extremely satisfied.

The PowerPoint slides were well done and easy to follow. The students were able to follow along and really enjoyed this project! - *Art Teacher, Kelley H.*

## Extremely satisfied.

Il used this as an "early finisher" project. It was calming and kept them engaged for longer than I expected with my rowdy class! - *Art Teacher, Michal A.*

# Thank You!

I am Lauren and creating beautifully designed middle and high school art lessons and resources that save you time and allow allow you to spend more quality teaching moments with your students is my PASSION and my ART. I truly believe when we feel good on the inside we shine on the outside. I love being able to share my art with you.
