Mystery Grid Drawing Worksheets

Drawing

Finished Example

This lesson can also be completed as a practice worksheet or you can make it a more finished project by completing the drawing on a separate piece of drawing paper. To complete the lesson on drawing paper, you can make the drawing 5 x 5 or 10 x 10 to keep it simple. For a 5 x 5 drawing, students will create a 1 inch grid on their drawing paper. For a 10 x 10 drawing the boxes would be 2 inches.

The drawings can be made into personal summer cards, colored, or left as a beautiful black and white line drawing.

MYSTERY GRID DRAWING

Name _____
Period _____

Directions: Draw what you see in the box in the box within the grid that has the corresponding letter and number. Begin lightly in pencil, you can add marker and color at the end if you would like.

Tip
If any of the boxes feel too challenging, simply draw an X over that box in your reference photo and the same box on grid. Now look only at what is in each triangle to help you simplify that spot.
